

Harrogate Theatre Production Department

Information for incoming companies: Studio

In order to meet your technical requirements we need the information from you **no less than 3 weeks before your arrival at Harrogate Theatre.**

Staffing:

We provide 1 technician to assist with studio get-in / out and operation of shows. Please let us know your intended arrival time so we can schedule our staff to meet you. If you have any specific staffing requirements please contact the technical manager for a quote.

Lighting plans and pre rigs:

The studio has a fixed lighting rig and any changes to this may be charged for. Please see our tech spec for a full equipment list. Certain items may not be available or may attract a hire charge. If you require a pre-rig we need your lighting plan a **minimum of 3 weeks** prior to your get-in. Please be aware that the studio has a very low ceiling and that lighting angles are shallow and beam spread restricted. Our technical manager is happy to discuss your lighting requirements.

Rigging and fixing of sets:

The studio does not have any load bearing points for rigging from. Any flats or floor standing scenery should be self supporting.

Seating:

The studio seating is set out in accordance with current H&S legislation and industry guidelines. If you feel that a different seating layout would work better for you we will be happy to discuss the options with you. Please be aware that there may be a charge made for changing the seating layout.

Special effects and fire:

As the studio is a confined space with smoke detectors we do not allow pyrotechnics, naked flame, smoke or haze effects of any kind.

Health & Safety:

You should receive a copy of our H&S guide for visiting companies. Please read this and return the signed back page to us as soon as possible.

Dressing rooms & Wardrobe:

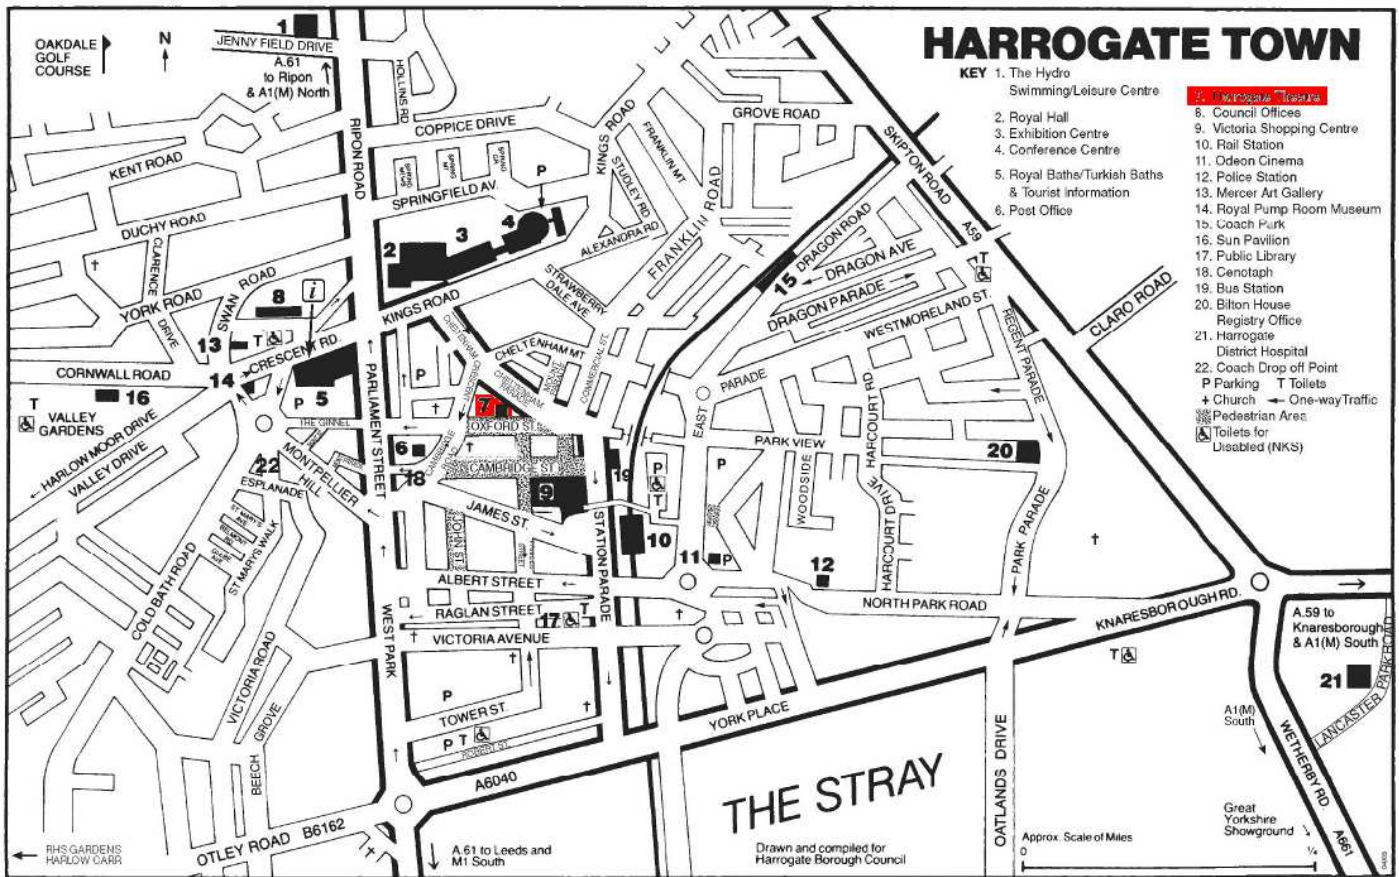

There is a single dressing room/green room adjacent to the studio for your use. We have a secure **wired** internet connection available in our stage management office which you are welcome to use. If you require the use of our wardrobe or laundry facilities please contact the technical manager in advance of your visit. There may be a charge for the use of our wardrobe facilities.

Arrival at Harrogate Theatre:

As we do not have a stage door, entry to the building is via the main public entrance on Oxford Street which opens at 10am. If we know you are arriving before 10am we will have a member of staff waiting for you.

The Studio is on the second floor and the only access is via the main entrance, then up the main staircase. The street at the main entrance is a pedestrian area between 10am and 6pm so ideally loading would take place outside those times. Between 10am and 6pm loading must take place from the loading bay at the rear of the building on Cheltenham Parade. This loading bay is operated by the local council and they are keen to see vehicles moved ASAP, so to avoid a ticket we recommend that you park up in a nearby car park as soon as you have unloaded. Local maps are available at the theatre.

Please note that as part of our H&S policy we require you to sign in/out of the building each time you arrive/leave.

Access to the Studio

Due to the age and design of our building we do not have a lift. Access to the studio is via the main public entrance and up 42 steps. There is 1 backstage toilet up 1 step. This is not a public toilet.

Main House

Please see separate information sheet if you are performing in our Main House.

General information:

On our website www.harrogatetheatre.co.uk you will find a full tech spec, ground plans, H&S documents and a very handy virtual tour of the building.
